PROFESSIONAL SUMMARY

Aspiring Software Development Engineer (SDE) with hands-on experience in full-stack development using React.js, Node.js, and PostgreSQL. Strong understanding of Data Structures, Algorithms, and system design fundamentals. Proven ability to build scalable, secure, and efficient applications with real-world deployment experience. Highly motivated to solve complex problems and contribute to high-impact engineering teams. Actively solving Data Structures & Algorithms problems to strengthen problem-solving and coding efficiency.

TECHNICAL SKILLS

- **Languages:** Python, C, C++, Java, JavaScript, TypeScript
- **Frontend & Backend:** React.js, Node.js, Express.js, Vite, Tailwind CSS, Bootstrap, HTML5, CSS3, EJS
- **Databases & APIs:** Supabase, PostgreSQL, MongoDB, Edge Functions, REST APIs, JWT, RBAC, Row-Level Security (RLS)
- **Tools & DevOps:** Git, GitHub, VS Code, Android Studio, IntelliJ, Capacitor, Vercel, AWS
- **Core:** Data Structures & Algorithms, OOPs, DBMS, Operating Systems

PROJECTS

EduVahak – School ERP SaaS Platform | [Live Demo](#) | *React.js · TypeScript · Supabase · PostgreSQL · Capacitor*

- Architected a multi-tenant School ERP with RBAC and PostgreSQL Row-Level Security (RLS) for secure data isolation across institutions.
- Built Supabase Edge Functions for server-side APIs; deployed the mobile version using Capacitor for Android & iOS alongside the web app.
- Optimized database queries and backend workflows, improving API response time by ~25% and enhancing overall system performance.
- Designed system architecture to support scalable multi-user access and efficient data handling.

PathFinder – AI Career Guidance Platform | [Live Demo](#) | *React.js · Supabase · PostgreSQL · Edge Functions*

- Developed an AI-powered platform analyzing user education, skills, and interests to recommend personalized career paths and growth opportunities.
- Integrated secure server-side AI inference via Supabase Edge Functions, ensuring safe API key management and scalable performance.
- Designed scalable backend architecture to handle multiple user requests efficiently, ensuring smooth performance under increasing load.

Servantra – Service Management Platform | [Live Demo](#) | *React.js · TypeScript · Vite · Tailwind CSS · Supabase · PostgreSQL*

- Built a full-stack platform with JWT-based secure auth, Supabase RLS data protection, and mobile-first responsive design using Tailwind CSS.
- Implemented clean MVC architecture with modular routing, enabling rapid feature iteration and long-term code scalability.
- Developed reusable UI components and optimized frontend rendering, improving user experience and reducing load time.

EDUCATION

ITS Engineering College, Greater Noida	— B.Tech – Computer Science & Engineering	2023 – 2027
Gandhi Inter College, Gopalganj	— Senior Secondary (Class XII)	2021 – 2023
Kendriya Vidyalaya Sangathan, Gopalganj	— Secondary (Class X)	2021

CERTIFICATIONS

- AWS Certification (Amazon Web Services) | ▪ Infosys Springboard Certification

ACHIEVEMENTS & ACTIVITIES

- Runner-up – Track Event, Hackathon at ITS Engineering College, Greater Noida.
- Top 40 out of 200+ teams – HackXtreme at IIMT, Greater Noida.
- Published 3 Android games on the Google Play Store (Master Chess, Sweet Crunch, Puzzle Game) with Google AdMob ads integrated for monetization.
